

## Hive

*Hive* is for audience playing combs. To perform it you will need:

1. a standing audience
2. combs for everyone

Action:

- Make sure everyone in the room has a comb.
- Gather the audience around you in a rough circle or doughnut.
- Demonstrate how to play the comb by flicking each tooth individually.
- Say to the audience: 'I'm going to start playing the comb, when the person to your right starts playing the comb, count five seconds and then start yourself. This should create a slow, clockwise Mexican wave. When we're all playing the comb, I'll wait a couple of minutes and then I'll stop. When the person to your right stops playing, count five seconds and then stop. The last person playing should be the person on my right. Does everyone understand?'
